

Content Disclaimer

The International Journal of Applied and Experimental Biology (IJAEb) is committed to providing accurate and up-to-date scientific information to its readers. It is critical to know that the content in IJAEb is for informational and academic purposes only. The content in IJAEb is subject to continuous review and updates. As new scientific discoveries and advancements emerge, previous findings are consistently subject to revision and expansion. Therefore, readers should be aware of the fact that the information published in older issues of the journal might be superseded by more recent research.

IJAEb disclaims all warranties/assurances, expressed or inferred, regarding the comprehensiveness, accuracy, or credibility of the information presented in its publications. The journal and its editorial team hold no responsibility for the information, views, and opinions in published articles of all types (research, reviews, editorial, communications, etc). The responsibility for the published content solely lies with the individual authors and contributors. The journal and its editors disclaim any responsibility for any potential harm, injury, or damage that may arise due to following any of methods, protocols, preparations, or instructions mentioned in the published content. However, readers are inspired to critically evaluate the research findings. Readers are also encouraged to seek professional advice or help, when applying any concepts or procedures, or before the adoption of any protocol or utilizing any product for research or commercial purpose presented in the journal. Moreover, for any specific scientific issue including medical, biological, physico-chemical, agricultural, sociological or technical issues, readers are advised to consult professionals and specialists.

For more detailed information about the journal's policies, submission guidelines, and copyright matters, please refer to the website of the International Journal of Applied and Experimental Biology (IJAEb).
