

Certificate of Ethical Approval by Institutional Ethical Review Board/Committee (IERB/C)

All submitted manuscripts are required to comply with the [Publication Ethics Policy](#). According to Section 4 of the Publication Ethics Policy, the authors of studies involving testing on human/animal subjects are required to provide a certificate of approval of the Institutional Ethical Review Board/Committee (IERB/C). The board must have to certify that all human/animal subjects were handled according to the guidelines set by the relevant IERB/C or equivalent body as follows:

1. The experiments were conducted in accordance with the ethical principles and guidelines set forth by the [Declaration of Helsinki](#), the [International Council for Harmonization of Technical Requirements for Pharmaceuticals for Human Use \(ICH\)](#), the [International Conference on Harmonization Good Clinical Practice \(ICH-GCP\)](#), and any other relevant national and international regulations.
2. All study participants declare that
 - a. All experiments involving animals were carried out following the guidelines provided by the IERB/C or equivalent regulatory body.
 - b. Efforts were made to minimize any potential pain or discomfort to the animals during the research.
 - c. Utmost respect for the participants' rights and privacy was considered
 - d. Human subjects were provided written informed consent before their involvement in the study.
 - e. For animal models, their owner (s)/caretakers were informed about the potential benefits/risks of the study.
 - f. Where explicit consent was not feasible, appropriate ethical approvals were obtained from an immediate relative/person.

By signing this letter, IERB/C affirms Publisher's/Journal Management's commitment to upholding the highest ethical standards in research. The editors of IJAEb may contact the responsible authorities or institutions to verify the authenticity of the ethical approvals provided, if desired.
